

Enclosures IP40 surface mounting

Surface mounting enclosures series ALFA are intended for indoor application. The base and front mask are produced from Acrylonitrile Butadiene Styrene (ABS), a material with shiny, impervious surface and the most important mechanical properties: resistance and toughness. ABS can be used between -25 and 60°C and is considered superior for its hardness, gloss, toughness, and electrical insulation properties. The transparent or white door is produced of Polycarbonate (PC) which is characterized by high mechanical impact resistance, chemical resistance, and UV stability. Enclosures are completely assembled with all necessary parts:

- 1 Isolated terminal
- 2 Base
- 3 DIN rail
- 4 Plastic screws
- 5 Front mask
- 6 DOOR
- 7 Lock

Base Material: ABS , color : RAL 9003
Glow wire test: 650°C
Door material: PC, color : transparent or white
Terminal holder: self-extinguishing material
Glow wire test: 960°C
Temperature: -25°C / $+60^{\circ}\text{C}$
Nominal voltage: AC 400V
According to standard: IEC 60670 / ICE 62208
Halogen free: YES

Series **Alfa** advantages

Thanks to the good technical properties and modern design, enclosures series ALFA can be used in all residential, business and catering facilities.

In every row, there is space for 12+2 modules.

There is plenty of room for cable implementation.

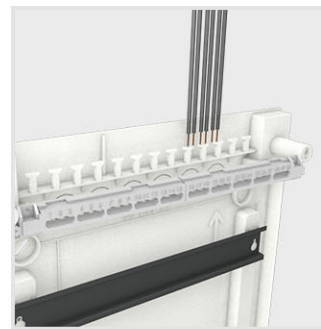

A door can be placed on the left or the right side.

With installed equipment, there is a possibility of using the enclosure without door with IP40 protection.

Possibility for sealing.

Cables can be connected with cable ties.

Enclosures series **Alfa**

N 12 Alfa

Type:	Dimension:	Number of modules:	No. of PE/N terminals:	Pde [W]
IP 40 □ In 63A	251 x 310 x 96	12+2	2 x 10	30

N 24 Alfa

Type:	Dimension:	Number of modules:	No. of PE/N terminals:	Pde [W]
IP 40 □ In 63A	377 x 310 x 96	24+4	2 x 13	40

N 36 Alfa

Type:	Dimension:	Number of modules:	No. of PE/N terminals:	Pde [W]
IP 40 □ In 63A	505 x 310 x 96	36+6	2 x 15	60

Accessories

COVER FOR EMPTY SPACE, PP

**standard accessories*

ISOLATED TERMINAL STANDARD, IS30

**standard accessories*

ISOLATED TERMINAL DOUBLE, IS60

**additional accessories*

ISOLATED TERMINAL , AUSTRALIAN STANDARD, IS30 AU

**additional accessories*

ISOLATED SCREWLESS TERMINAL, IS 3/14 PE/N

**additional accessories*

LOCK WITH KEY, LOCK ALFA
